Structure

Year 1

- Hands on programme and clinical skills development (phantom head training)
- Supervised Clinical Practice
- Self Study

Clinical Practice Rota

This 12-month course covers a blended teaching approach, encompassing both direct mentorship and Hands-On Study Days with our Trusted Lecturers, as well as access to our renowned digital learning platform - SynTrain International Academy, for online support and training modules.

As part of your training, you will have:

- Blended teaching approach
- Digital learning – SynTrain Academy
- Digital assessments
- Digital meetings
- 4 Hands-on study days
- Integrated direct/indirect mentorship
- 3 dental implant cases placed under direct mentorship (Provided by Synergy Dental)
- Support to integrate dental implantology in your practice
- Support post course completion
- 128 Credits

Teaching

You will be taught both face to face and online too to give you flexibility and avoid taking days off from work.

Clinical Skills Development

You will have the opportunity to be taught in a high-tech skills lab. This consists of Manikin phantom heads simulating patients.

You will have:

- Practical experience in dental implant placement
- Hands-on training in our purpose built phantom head facility
- Comprehensive experience in implant restorative procedures
- Direct interaction and surgery with live patients
- Live patient demonstrations by experienced professionals

Clinical skills development timetable

Unit 1	Single Implants
Unit 2	Multiple Implants
Unit 3	Overdentures
Unit 4	Full Arch

- History and Examination
- Treatment planning and costs for Advanced Implant Cases
- Planning Implants on a CT scan for Advanced cases
- Consent procedure including report writing
- Fabrication of Surgical Drill Guide
- Implant Surgery procedure for Multiple Implant Placements
- Local Anaesthetic
- Flap Elevation
- Standard Plus Implant surgery
- Bone level tapered implant surgery
- CT Guided surgery for Multiple Implant Placements
- Post Operative Care
- Post Operative Review and suture removal
- Impression taking
- Digital Scans
- Fabrication of the final prosthesis.
- Insertion of the final prosthesis
- Review Visit
- Maintenance visit
- Case studies

Unit 3 - Implant Overdentures

- Treatment planning and costs for Complex Implant Cases
- Planning Implants on a CT scan for Complex Cases
- Consent procedure including report writing
- Fabrication of Surgical Drill Guide
- Implant Surgery procedure for Overdenture Implant Placements
- Flap Elevation
- Bone level tapered implant surgery
- CT Guided surgery
- Post Operative Care
- Post Operative Review and suture removal
- Impression taking
- Digital Scans
- Fabrication of the final prosthesis. Implant Overdentures
- Insertion of the final prosthesis
- Review Visit
- Maintenance visit
- Management of Intra-Oral Complications
- Case studies

Unit 4 - Full Arch Implants

- Treatment planning and costs for Complex Full Arch Implant Cases
- Planning Implants on a CT scan for Complex Full Arch Cases
- Consent procedure including report writing
- Fabrication of Surgical Drill Guide
- Implant Surgery procedure for Full Arch Implant Placements
- Flap Elevation
- Bone level tapered implant surgery
- CT Guided surgery
- Post Operative Care
- Post Operative Review and suture removal
- Impression taking
- Digital Scans
- Fabrication of the final prosthesis. Full Arch Fixed Hybrid Bridgework
- Insertion of the final prosthesis
- Review Visit
- Maintenance visit
- Management of Intra-Oral Complications
- Case studies

Advance Prior Learning

Students who have completed the PG Diploma in Implantology and want to progress by enrolling onto the MSc programme, will benefit from:

- You will have the opportunity to assist in implant surgery on 7 cases. We aim to allow you to assist and place implants in most cases depending on case selection and complexity. Please note, we normally allow 3 mentorship cases for our PG Diploma course. So, we top up the MSc programme with a further 7 cases.
- Delegates will receive our Full Same Day Implants Training.

Admissions Criteria

Entrants must satisfy the following entry requirements:

Normally at least two years' demonstrable postgraduate clinical experience in clinical practice as a:

- qualified dental practitioner
- Current registration with the UK General Dental Council (GDC) or equivalent in another country
- Evidence of appropriate professional liability insurance/Medico-legal indemnity insurance as may be required for the designated clinical setting at an appropriate level
- Access to clinical practice setting that gives enough exposure to the relevant area of clinical specialism

Apply for a Student Scholarship

At The University of Greater Manchester, we understand that pursuing education can come with financial challenges. To support individuals in need, we've introduced a scholarship scheme specifically for clinicians. This program is designed to provide financial assistance and help make education more accessible.

Scholarship Specifications

Each year, a limited number of scholarships are available through our student scholarship scheme. These scholarships provide up to £5,500 towards the cost of Postgraduate education.

Eligibility Criteria:

- Students enrolled in a Postgraduate program.
- Students who have completed an accredited Postgraduate Diploma course are also eligible to apply.
- Students must have a current registration with the UK General Dental Council (GDC) or equivalent in another country

Terms & Conditions

- **Validity Period:** If successful, the scholarship is valid for a limited period to allow other candidates the opportunity to apply. Each scholarship offer is valid for **3 months** from the date of award.
- **Program Eligibility:** Scholarships are available exclusively for select **MSc** and **Postgraduate Diploma** programs.
